NEWS RELEASE

FOR RELEASE, Immediately

FOR MORE INFORMATION, CONTACT: Jane Back, janeback@accessthearts.net

Cliffside Artists Collaborative in Hinckley, Ohio is offering free Digital Art Workshops for all area High School students. There will be "Basics of Procreate" and "Advanced Procreate" workshops in both November and December.

Students will learn how to use the Procreate program to sketch, paint and create digital art on an iPad, creating expressive sketches, rich paintings, gorgeous illustrations and beautiful animations anytime, anywhere. In the "Basics Workshop" students will learn how to navigate and quickly get a handle on how to make creative works of art on the iPad. They will also be introduced to Digital Photography and how to enhance, manipulate, and add interesting filters to digital photographs. In the "Advanced Workshop" they will use the styles and techniques they learned in the basics class and apply them to concept art for video games, movies, and other media. Advanced Digital Self-Portrait and Animation Basics will also be covered.

iPad's for in-class student use will be provided. Breakfast and lunch will also be provided by the CAC. These free workshops are perfect for High School Students to help them build a stronger portfolio.

Registration is required and the form is available at <https://www.cliffsideartistscollaborative.org/>.

More information is available on the attached documents.

The CAC hopes to make these Digital Art Workshop classes available to adults at a later date.

These workshops are being brought to you with help from The Medina County Arts Council and support from The Martha Holden Jennings Foundation.
